Professional Summary

Full Stack Software Engineer with 6 years of experience building scalable SaaS products using React, TypeScript, Node.js, and PostgreSQL. Strong record of shipping customer-facing features end-to-end, improving system performance, and working in fast-moving Agile teams. AWS Certified Developer with hands-on Docker and CI/CD experience.

Professional Experience

Senior Software Engineer

CloudPath Technologies — Austin, TX | Jan 2021 – Present

- Architected and shipped 8 major product features in React/TypeScript for 15,000+ daily active users, reducing customer-reported UI bugs by 62%.
- Built Node.js RESTful APIs handling 8M+ daily requests at 99.96% uptime with full OpenAPI documentation.
- Optimized 14 critical PostgreSQL queries through indexing and rewriting, reducing average response time from 420ms to 38ms.
- Led code reviews and pair programming for 3 junior engineers, cutting average PR cycle time from 4 days to 1.5 days.
- Introduced GitHub Actions CI/CD pipeline, reducing deployment time by 70% and eliminating all manual release steps.

Software Engineer

Veridian SaaS — Austin, TX | May 2018 – Dec 2020

- Developed full-stack features using Vue.js, Python/Django, and PostgreSQL for a B2B project management tool with 500+ enterprise clients.
- Containerized application with Docker and participated in AWS migration (EC2, RDS, S3).
- Maintained 88% test coverage using Jest (frontend) and pytest (backend).
- Collaborated directly with product managers and designers to translate requirements into technical designs.
