

Professional Summary

Software Developer with 3 years of experience building web applications. Primarily focused on Python/Django backend development with some React frontend exposure. Comfortable with Git, writing unit tests, and working in small product teams.

Professional Experience

Software Developer

Stackline Apps — Austin, TX | Aug 2021 – Present

- Built and maintained REST APIs using Python and Django REST Framework for an internal workflow tool.
- Developed basic React components for a customer-facing dashboard — first significant frontend work.
- Wrote PostgreSQL queries for reporting features; learned indexing basics through a team workshop.
- Participated in weekly code reviews and worked in a Git branching workflow with the team.
- Added unit tests using pytest, bringing backend coverage from 30% to 58%.

Junior Developer

FreelanceWork (Self-Employed) — Remote | Jun 2020 – Jul 2021

- Built small client websites using JavaScript and basic HTML/CSS.
- Set up simple MySQL databases for two small business clients.
